At our school, students are prohibited from working part-time for one month after admission.

First, you prioritize getting used to studying at school and life in Japan.

Some students with low Japanese language proficiency do not pass the interview and are unable to find a part-time job.

It also takes about a month to register your address, join the National Health Insurance, and open a bank account.

You cannot start a part-time job until these procedures are completed.

Even if you start a part-time job, you will be paid the month after the month you worked.

Please be sure to bring at least three months’ worth of living expenses with you.

- Application for permission to engage in activities other than those permitted by the status of residence

International students must obtain permission to engage in activities outside the scope of their status of residence if they want to work part-time.

Working part-time without permission is considered illegal employment and may result in the revocation of your residence permit.

To obtain permission to engage in activities outside the scope of their status of residence, submit an “Application for Permission to Engage in Activities Outside the Scope of Residence” to the immigration officer at the airport when you enter the country.

*If you are applying after entering the country, apply at the Kyoto Branch Office of the Immigration Bureau of Japan with your “Application for Permission to Engage in Activities Outside the Scope of Residence” and “Residence Card.”
